

New Mexico
Law Enforcement Training Program

LIDAR Operator Training

The NMLETP utilizes highly-qualified instructors.

All certified law enforcement officers are eligible to attend.

All courses and trainings are provided at no cost.

All courses are accredited by the New Mexico Department of Public Safety Law Enforcement Academy.

Course/Hours	Course Description
LIDAR Operator Training 8 HOURS	<p>This training assists law enforcement personnel in developing the skills necessary to successfully operate laser technology. Students will gain a comprehensive understanding of the motivation, basic methods, principles, and operation of laser technology used in speed enforcement. Training topics include detailed mathematics and scientific principles for successful use of laser technology, information about moving and legal issues, and preparing for court testimony. The training is designed for law enforcement personnel, including but not limited to field officers and first-line supervisors.</p> <p>PREREQUISITE AND REQUIREMENTS: Students should bring a LIDAR unit (in-car and/or hand-held), reflective vest, and note taking material</p>
